

2009 New Class in Member Racing Series

A new class will be introduced for 2009.

Eligible cars for this class will include ASA style stock cars. These stock cars are surprisingly affordable. A quality car is around \$25,000.

Porsche GT3's may also be eligible for this exciting new class. The GT3's and the stock cars are capable of running similar lap times even though they drive quite different.

This should prove to be a great addition to the Autobahn Members Racing Series.
